

CFA-WC1 DC Wall Controller

Description

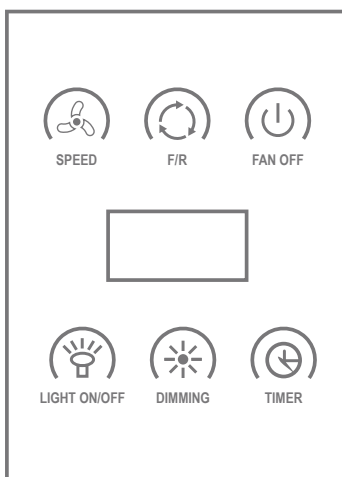

The CFA-WC1 DC Wall Controller is compatible with all Domus DC Ceiling fans. The DC wall control works in conjunction with the fan's existing remote. It gives you nine speed options, timer functions and controls reverse functionality on compatible fans. If paired with a fan that includes a light, this DC wall control will switch the light on and off. It also controls CCT and dimming functions in compatible ceiling fan lights. An ideal choice if you would like the option of a remote and a wall control. Timer function for fan and light (1,2,3,8 hours). Reverse function, Light On/Off Settings, Light Dimming, Colour Changing Technology function (CCT) works in conjunction with remote control. Displays ambient room temperature in Celsius. White and Blue LED back light. Must be installed by qualified electrician.
