#### Minimum clearance distances to flammable building elements.

#### Note:

- The LED driver is NOT suitable for covering with insulation material.
- Warning-Risk of overheating or fire if the clearance distances are compromised.
- If the external flexible cable is damaged, it needs to be replaced by the manufacturer or his service agent.
- The light source of this luminaire is not replaceable; at the end of life the whole luminaire should be replaced.

1. Open a hole according to the cutout size of led downlight.

2. Use screw-driver to open the driver terminal cover, feed the main AC wire L.N. in terminal block respectively, then fix the cover back.

3. Connect the downlight with driver, hold back the spring clip then push the downlight into the hole.

4. Make sure the downlight fixed tightly in ceiling, turn on the power.

**Note:** -The lamp must be installed by professional electrician  
-Ensure the power supply is switched off before fitting this product

-Do not touch the lamp when in use  
-Keep away from hot steam and corrosive gas
