### How to install:

- The LED down light shall be installed in accordance to Australian/NZ electrical standards.
- The LED down light shall be installed in locations and in conditions as described in the below figure.
- Please make sure all electricity is switched off at the main switch board before any electrical works are to commence.
- Cut out the hole according to the downlight cutout table.
- The LED driver is supplied with an Australian approved 2pin flex and plug.
- For easy maintenance Domus recommends the use of plug base sockets in the ceiling.
- If you are intending to hard wire the LED drivers please remove the supplied flex and plug from the LED driver.
- When connecting the LED lamp/down light to the LED driver please ensure the connecting plug is securely pushed in and the connection is not loose.

**Note:** The LED driver is NOT suitable for covering with insulation material.

**Note:** -The lamp must be installed by professional electrician  
-Ensure the power supply is switched off before fitting this product

-Do not touch the lamp when in use  
-Keep away from hot steam and corrosive gas
